MARCH 2025

Giving back to Cannonville

From Stewart, Fire....

Nothing new to report.

From Alma & Klint, Water....

Were in the process of updating the annual state water usage report. It will be available in the April town council meeting if you'd like to peruse it. Klinton C. recently attended the state water conference in Saint George. He was able to share our successes and our recent challenges. He learned of the importance of incorporating pressure reducing valves in our systems. **He also mentioned that Cannonville drinking water rates 5th in the state.**  **High praise.**

Also, please let us know if you suspect a leak or have a problem. The team is looking into some leak detection equipment to help the town find and repair leaks. Testing is still ongoing, and results are within Utah specs. Contact Klinton Chynoweth if you'd like your household water evaluated.

From the Mayor....

A new planning commission was approved by the town council in our February meeting: Peter Jensen, Chelsea Nielson, Mark Nelson, Klancy Ott & Cole Twitchell. They will be working hard to finalize the zoning ordinance, annexation and any new subdivision requests. A letter of appreciation and a rousing round of applause to given to John Morreale for his many years of service to the town. Thanks again John.

There are a few public meetings in March that you should be aware of: A zoning meeting on Wednesday the 12th at 6pm, **the Promise Rock meeting on Saturday the 15th. (Check the board for the actual time. It may be changed)**, and an annexation request meeting, Wednesday the 19th at 6pm, followed by the Town Council meeting at 7pm. Public is welcome to attend.

Just a reminder, only house-hold garbage in bags goes in the green debris boxes on the streets. All other yard and non-household items can be placed in the dumpster at the firehouse.

From John, Roads....

New street signs will be positioned on our streets in the next couple of months.

From Clyde, IT/Treasurer....

Our town recently implemented the State's Cyber Security requirements, and we're scheduled for a site visit this month.

From Machele, Admin....

Be sure and get your 2025 Business Licenses as soon as possible.

Office hours 9:30-12:30 Mondays

About Promise Rock....

A public awareness session from developers and Elastic Architects will be held Saturday, March 15th at 2pm. (As of Monday March 3rd, the advertised time of 2pm may be changed. Watch for the time change, if any, posted in the post office).

Our State Legislative contact information is listed below:

Garfield County

Logan Monson – Representative(R)	House District 69	Lmonson@le.utah.gov
