Giving back to Cannonville

OCTOBER 2024

From Mabelle, Admin....

Office hours 9:30-12:30 Mondays

Pumpkin & Apple Pie Contest

Saturday, 19th 9 am

From Stewart, Fire

The truck is operational and full of water if needed. Our newest volunteer will be attending training classes in the next couple of months with the Tropic and Henrieville fire teams.

From Melanie, Parks....

Fun Holiday things are being discussed about December at the town park. Or if you have any ideas about updating the fire circle or the new basketball court, be in touch with Melanie Ott with your ideas, plans, and/or suggestions.

From the Mayor...

Don't forget to build a big apple pie from the town-hall apples and bring it and your garden pumpkins to our fall apple and pumpkin extravaganza the morning of October 19th at 9am, town park. Each pumpkin will be weighed, heaviest pumpkins the winners. A separate judging will be for decorated pumpkins and scarecrows. They must be real, no artificial pumpkins, your own decorations, and carvings. Age groups are 0-12, 13-27, and the rest of us, as Bob Ott, RIP, said, "In the Shadow of a 100."

The draft of the new subdivision ordinance was reviewed in meetings held September 18th. The town council will work to adopt it during meetings this month. Some of the decision making will be done by a third party (Land Use Authority) Were in the process of finalize who that will be and what they will charge.

The SITLA folks will be accompanied by the County Commissioners on October 10th to conduct a site visit of Promised Rock and the surrounding area. I received a letter this past week indicating our proposal was not accepted, but there is a strong indication the State Park folks are still a part of the final decision, somehow?

Thanks to everyone who worked on the cemeteries during the Sep 14th Day of Service. Several pioneer headstones were lifted and made level. Thanks to the Ward for coordinating all the folks and providing the sandwiches.

A group of fun people met this past week to figure out how the town can begin a holiday tradition during December. Watch for additional details, but it may include a tree lighting, program and Christmas caroling, Santa, and yummy hot chocolate and scones. Please mark Saturday, November 30th for our first annual Holiday Party.

Hopefully, you were able to see and read the County's new guidance on the green debris boxes around town. The county has asked that only household waste and flat cardboard be dumped: no building materials, wood, dead animals, metal, appliances, or other hard materials. Violators may be fined.

From John, Roads

The design for the streets signs can be reviewed. See John

From Alma & Klint, Water

Everything on the Spring House has been completed except hanging a light bulb for after dark access. Reminder, the town's water is sampled and evaluated each month at various locations. Contact Klinton Chynoweth if you'd like your home spicket water evaluated. Quarterly test results are all within state parameters.
