JANUARY 2025

Giving back to Cannonville

From Mabelle, Admin....

Office hours 9:30-12:30 Mondays

From Stewart, Fire....

Thanks to everyone who helped clean up and organize the firehouse. Training nights are 2nd/last Wednesdays, 7pm Tropic Fire.

From Alma & Klint, Water....

Work is being done to operate and monitor our well remotely. Reminder, the town's water is sampled and evaluated each month at various home locations. As of December 31st, chlorine residual has been stable, averaging .04 percent, well within state parameters. The annual report on gallons chlorinated and used by the Town of Cannonville has been delivered to the state on time.

Contact Klinton Chynoweth if you'd like your home spicket water evaluated

From Melanie, Parks....

Thanks to everybody who helped with park setups and takedowns.

From John, Roads....

Street signs have been delivered and will be installed as soon as possible, temperature permitting.

From the Mayor....

December proved to be a great month for the Town of Cannonville thanks to everybody who made "Christmas at the Park" a reality. (Hallmark movies missed a great movie op). Ideas have been surfacing about our next one. I'm thinking, light parade & wagon rides, more animation, reindeer, or an international food court celebrating other country's, Christmas traditions, and food.

It was great to see people embrace our theme, "Giving Back to Cannonville." Over \$200 in cash and gift cards were donated, along with about a hundred pounds of food, clothing, and blankets to the Youth Futures shelter in Cedar. Thanks to Rita Twitchell for making several humanitarian road trips with the goods. Thanks for the all the donations.

Congratulations to the 2024 Door Decorating winners. Water bills will be adjusted for the Brenna Lee & Braden Westerman, Anita & Alma Fletcher, Mia & Dahlie Barna & family, Milli Twitchell & her Mother-in-law Rita, Verjean & Steve NYY Clark, and Arjean and Stewart Ivie. Thanks to everybody else who decorated their yards, houses, and driveways with special lighting, seasonal figures, and massive blowups. Feedback from others has been extremely positive.

Please continue to use the dumpster at the firehouse for all **NON-HOUSEHOLD** garbage and items.

A second, open to the public, zoning ordinance meeting will be held January 8th at 6pm Thanks to Erik McDonald and his team for following up on the new document.

Our first town council mtg of the new year will be held January 15th at 6pm. Public is welcome to attend.
